

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Previously presented) A portable food dispenser comprising:
 - a. a first container, the first container having a pair of container slots and a pair of container tabs;
 - b. a lid that covers a top opening of the first container, the lid operational between a first position and a second position, wherein the lid is integral with the first container, such that when the lid is in the first position it covers substantially all of the top opening of the first container, and when the lid is in the second position it covers only a portion of the top opening of the first container;
 - c. a handle on the lid, wherein the handle includes a pair of handle tabs positionable to fit into the pair of container slots to secure the lid in the first position, and a pair of handle slots configured to connect with the pair of container tabs to secure the entire lid in the second position; and
 - d. a second container, wherein the second container is capable of fitting inside the first container.
2. (Original) The portable food dispenser of claim 1, further comprising a cover for the second container.
3. (Original) The portable food dispenser of claim 2, wherein the cover contains an opening.
4. (Original) The portable food dispenser of claim 2, wherein a portion of the cover can be removed to create an opening in the cover.
5. (Original) The portable food dispenser of claim 3, wherein the cover includes a removable cap that covers the opening in the cover.

6. (Original) The portable food dispenser of claim 1, wherein the first container is formed from a unitary blank of corrugated cardboard.

7. (Original) The portable food dispenser of claim 1, wherein the second container is formed from thermoformed polyethylene.
